Drainage contractor:

### Project details

**Project requirements:**  
High capacity drainage using large diameter tanks.

**System cost:**  
£440,000

**Key criteria:**  
Stormwater tank with full loadbearing strength in order to be located under main car park.

**Solution achieved:**  
Then the largest volume Tubosider tank - 8000 cubic metres in a combination of 2m and 1.8 m diameter pipe to suit site levels, making a full length of 3000 metres.

**Other benefits:**  
Fast installation - the contractor was able to install up to 18 pipes per day, completing the job in only three weeks.
